Naturopathy or naturopathic medicine is a form of alternative medicine that employs an array of pseudoscientific practices branded as "natural", "non-invasive", or promoting "self-healing". The ideology and methods of naturopathy are based on vitalism and folk medicine, rather than evidence-based medicine (EBM). Naturopathic practitioners generally recommend against following modern medical ...

Bottom Line: Evidence for inhaled marijuana for pain is too sparse and poor to provide good evidence-based guidance. Synthetic MC-derived products may modestly improve neuropathic pain for one in 11-14 users but perhaps not for other pain types. Additionally, longer and larger studies (better evidence) show no effect. Adverse events are plentiful.

Nambudripad's Allergy Elimination Techniques (NAET) is a form of alternative medicine which proponents claim can treat allergies and related disorders. The techniques were devised by Devi Nambudripad, a California-based chiropractor and acupuncturist, in 1983, drawing on a combination of ideas from applied kinesiology, acupuncture, acupressure, nutritional management, and chiropractic methods.

The term ‘ naturopathy ’ was formally codified in North America and attributed to Dr. Benedict Lust. Dr. Lust founded the American School of Naturopathy in New York in 1902. By the 1920s naturopathic practice acts were increasing across North America. However after WWII, demand for naturopathic education was on the decline as surgical and pharmaceutical therapies grew in stature and demand.
