Studies show that, as students progress through college and beyond, they usually become increasingly liberal as they encounter a variety of perspectives. Thus, more educated individuals are generally more liberal, while less educated people tend toward conservatism. Moreover, the heavy emphasis on research at most institutions of higher education puts them on the cutting edge of changes in ...

In planning studies' designs, sociologists generally choose from four widely used methods of social investigation: survey, field research, experiment, and secondary data analysis, or use of existing sources. Every research method comes with plusses and minuses, and the topic of study strongly influences which method or methods are put to use.
